

## What to expect: 3's, 4's & Young 5's

Each preschool class at ACS begins and ends their day with worship and prayer. We look forward to praying for our friends and family, giving thanks to Him for good things in our lives, and discovering all the WOW in His amazing world through our learning. The teachers strive to connect His creation, goodness, and love through each unit of study, friendship formation, and more. We consider it a privilege to share these things with your child and your family, and to partner with you in his/her learning, development, and spiritual journey.

### 3's

Threes begins a child's introduction to school. Many new experiences appear in this class as students learn how to adapt to transitions, change, taking safe risks and more. Name activities, shape and color explorations and outdoor story times are all a part of our school days.

### 4's

Fours preschool students begin work on their kindergarten readiness skills. Social emotional tasks and independence skills are a big focus through their days. Fours preschoolers explore alphabet and number concepts. Students will also experience various outdoor education explorations.

### Young 5's

Young Fives bridges the gap between preschool and kindergarten, allowing younger five-year-olds a year of social & emotional growth along with continued exposure to academic skills and concepts further preparing them for success in school. It also includes transitions to specials (i.e. PE, library, music, outdoor education and art) and independence practice.

## Integrated Outdoor Education

At Ada Christian School, we want our 37-acre campus to be a garden of delight where all of our students experience the wonder and awe of our Creator through integrated outdoor education adventures in all subjects. At its best, integrated outdoor education involves the biological, physical, social, spiritual, cultural, and historical aspects of life that enrich our students' learning opportunities. Outdoor education provides a change of pace and a change of space for learning.

# Preschool

Ages 3-5

Preschool at Ada Christian provides a stimulating and enriching experience for each child during this stage of their development. Teachers strive to nurture the social, emotional, physical, spiritual and intellectual growth of the preschool child in a secure and loving environment.

**Ada Christian School**  
Faith. Strong.
